

Supporting Document A (SD A) Proposed Environmental Measures Introduction

Supporting Document A (SD A) contains draft license measures and management and monitoring plans developed for the relicensing of Placer County Water Agency's (PCWA) Middle Fork American River Project (MFP or Project). The draft license measures and management and monitoring plans consider input from state and federal resource agencies, Native American Tribes, non-governmental organizations, and members of the public (collectively referred to as MFP stakeholders) acquired during extensive consultation activities completed for the relicensing of the MFP. However, the Proposed Action represents only PCWA's recommended environmental measures.

Volume 5 contains SD D and SD E (Privileged Information) which provides information regarding the location of sensitive cultural resources and the Historic Properties Management Plan (HPMP). The disclosure of this information could be harmful to these resources, therefore, the HPMP is only distributed to the Federal Energy Regulatory Commission (FERC or Commission) and select resource agencies and Tribal representatives.

The proposed environmental measures included in the Proposed Action are documented in the following draft license measures and management and monitoring plans:

- Aquatic Resources
 - Flow and Reservoir Monitoring Plan;
 - Fish Population Monitoring Plan;
 - Foothill Yellow-Legged Frog Monitoring Plan;
 - Geomorphology Monitoring Plan (In Development);
 - Riparian Monitoring Plan (In Development);
 - Sediment Management Plan;
 - Water Temperature Monitoring Plan; and
 - Instream Flow and Reservoir Minimum Pool Measure.
- Land Management
 - Transportation System Management Plan; and
 - Fire Prevention and Suppression Plan.
- Recreation Resources
 - Recreation Plan; and
 - Visual Management Plan (In Development).
- Terrestrial Resources
 - Vegetation and Integrated Pest Management Plan; and
 - Bald Eagle Management Plan.
