

MFP Relicensing

Stakeholder Interests Statements April 25, 2006 Stakeholder Meeting

Please prepare a written statement articulating you/your organization/agency interests in the MFP relicensing effort.

Please articulate your interests versus asserting hard line positions. Identifying interests allows for creative solutions that may address the interests of multiple stakeholders. This approach also acknowledges that study of the project impacts and existing conditions is necessary before developing the resource measures for the next licensing period.

This exercise is meant to be a snapshot in time to help the group understand the interests of the various stakeholders involved in the MFP ILP stakeholder group. In general, these statements are not meant to be definitive in any way, but represent initial thinking at the start of this process. It is also understood that some agencies do have definitive interests and that sharing these with less experienced or non-agency stakeholders will be beneficial.

Interest statements are scheduled to be shared at the May 16 stakeholder meeting. Please bring your statement to the May meeting. After the meeting, all stakeholder interest statements will be compiled for the group's reference.
