Success Factors - Breakout Group Instructions

Objective: This exercise is meant to provide an opportunity for folks to express a diversity of perspectives. This exercise is not meant to be a debate or an attempt at consensus.

Instructions:

1. Select a graphic recorder/facilitator to record group comments on flipcharts. This person should record comments made and ask only clarifying questions.
2. Consider the questions below.
3. Select a spokesperson to share a couple of key ideas with the larger group after the breakout exercise is complete.
4. Ensure everyone participates.

PART ONE

Allow each member of your group complete the following statements. Please list the responses for each on separate flipcharts in clear and concise language; do not attribute the responses.

- **My hopes for the ILP stakeholder process are _____.**
- **My fears about the ILP stakeholder process are _____.**

PART TWO

Review the lists generated in part one. Brainstorm and answer the following.

- **How can I/my organization/agency contribute to the success of the ILP stakeholder process?**
- **How can the ILP stakeholder group as a whole ensure a successful process?**
- **Any other creative ideas folks want to share?**

Make sure everyone in your group has a chance to contribute and that there is balanced participation.

Be creative! This is not an exhaustive exercise and is designed to get us thinking about how we can individually and collectively support the process and ensure ILP stakeholder success.
