RE: L.L. Anderson Dam Progress Report and Corps of Engineers Coordination

Dear Mr. Jones:

We received your letter dated August 9, 2004 that transmitted a report on the Corps of Engineer's (Corps) progress on the proposed spillway improvement at the subject dam and PCWA's coordination with the Corps on the project. We understand that coordination meetings that included the Corps and PCWA have been held to discuss design alternatives, project management, and environment issues over the past five months. As you discussed on the telephone with Mr. John Onderdonk of my staff on August 16, 2004, please provide our office with advanced notice on any project related meetings with the Corps that occur in the future. Thank you for your continued cooperation in this aspect of the Commission's dam safety program. If you should have any questions please contact Mr. John Onderdonk at (415) 369-3339, or by e-mail at john.underdonk@ferc.gov.

Sincerely,

TAKESHI YAMASHITA

Takeshi Yamashita, P.E.
Regional Engineer
