**Re: Exploratory Borings near Spillway at LL Anderson Dam**

**Dear Mr. Jones:**

We received your letter dated July 1, 2004 that requested FERC authorization to drill three exploratory borings near the right side of the spillway. Also included with your letter were the drilling specifications including the method of grouting of the holes after boring completion. Your request to do these borings is approved contingent upon the Corps obtaining a special use permit from the Tahoe National Forest prior to drilling. If you have any questions or concerns, please call Mr. John Onderdonk at 415-369-3339, or at [john.onderdonk@ferc.gov](mailto:john.onderdonk@ferc.gov).

Sincerely,

**KIRAN K. ADHYA**
