Re: Permits for Sediment Removal at the North Fork Long Canyon Diversion Dam

Dear Mr. Jones:

We received your letter, dated October 11, 2004, submitting the construction plan and agency permits for the removal of approximately 300 cubic yards of sediment from a pool near the Middle Fork Tunnel Intake at the North Fork Long Canyon Diversion Dam, FERC Project No. 2079. The permits are satisfactory and you are authorized to proceed with the sediment removal as described in your letter and the attached documents.

We appreciate your cooperation in coordinating this project with us and in providing the permits for our review. If you have any questions or concerns regarding the above, please call Mr. John Onderdonk at (415) 369-3339, or at john.onderdonk@ferc.gov.

Sincerely,

TAKESHI YAMASHITA

Takeshi Yamashita, P. E.
Regional Engineer
