RE: FERC Project No. 2079
Middle Fork American River Project
Order Approving As-Built Exhibit L Drawings
Ralston Powerhouse Floodwall & Middle Fork Powerhouse Stoplog Hoists

Dear Sir or Madam:

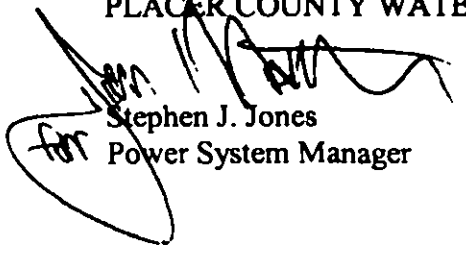

This letter is in response to the Order Approving As-Built Exhibit L Drawings, issued August 23, 2004. The Order requires that Placer County Water Agency issue new drawing numbers for three as-built Exhibit L drawings, L-24, L-26, and L-32. The revised drawing numbers are 2079-389, 2079-390, and 2079-391, which supercede 2079-343, 2079-345, and 2079-351, respectively. We are also requested to provide electronic copies of these drawings in the specified TIFF format.

Please find the two enclosed CDs, which contains the subject drawings. We are also submitting a copy of the CD to the San Francisco Regional Office.

Please call Jon Mattson or me at (530)885-6917, if you have any questions.

Sincerely,

PLACER COUNTY WATER AGENCY

for
Stephen J. Jones
Power System Manager
