

Table 3. Summary of 1993-94 Electrofishing surveys on the Rubicon River.

Date	Section	Length	Species	Population Estimate	\pm 95% C.I.	Estimated #/Mile	Lbs. Per Acre	Minimum Length (mm)	Maximum Length (mm)
10-14-93	11 /1	288'	rainbow trout	255	26	4,675	24.6	54	242
10-14-93	11	288'	brown trout	130	13.8	2,383	39.8	70	527
10-14-93	11	288'	total trout			7,058	64.4		
10-14-93	11	288'	sculpin	1 capture					103
10-13-93	12 /2	264'	rainbow trout	63	12.3	1,260	13.9	60	236
10-13-93	12	264'	brown trout	144	9.8	2,880	38.3	65	287
10-13-93	12	264'	total trout			4,140	52.2		
10-13-93	12	264'	sculpin	8	1.0	160	0.5	51	105
09-20-94	10 /3	232'	rainbow trout	68	34.8	1,547	12.6	62	239
09-20-94	10	232'	brown trout	65	45.4	1,479	31.5	73	522
09-20-94	10	232'	total trout			3,026	44.1		
09-20-94	10	232'	Sacto. sucker	1 capture					47

1/ Section 11 located immediately upstream of confluence with South Fork Rubicon

2/ Section 12 located about one mile upstream of confluence with South Fork Rubicon

3/ Section 10 located about 600' upstream of bridge at Ellicott Crossing
