Re: FERC Project No. 2079-CA

Dear Mr. Yamashita:

This letter is being written to report an incident that occurred at Placer County Water Agency's Middle Fork Powerhouse which was discovered Thursday June 23, 2005. Damage to the entrance gate was discovered Thursday afternoon at about 1:20 p.m. by project operations personnel. The previous time that our personnel entered the Middle Fork Powerhouse yard was at 10:22 AM June 22, 2005, leaving the Powerhouse at 11:57 AM that same day, which would pin-point the break-in to sometime between 11:57 AM on June 22 and 1:20 p.m. the following day. The incident was reported to local Placer County Sheriff deputies who responded to the scene, took a report of the incident, and dispatched a helicopter to survey the area to determine if the people responsible for the damage were still in the area. No damage to any of the equipment or facilities within the yard was found and our work crews have restored the entry gate to full functionality.

If you have any questions, please call me at (530) 885-6917.

Sincerely,

PLACER COUNTY WATER AGENCY

Stephen J. Jones
 Power System Manager

cc: David Breninger
