13.0 FINDING OF NO SIGNIFICANT IMPACT

Continuing to operate and maintain the Middle Fork American River Project (MFP or Project) with the recommended programs, measures, and facilities included under the Proposed Action will not be a major federal action significantly affecting the quality of the environment. Furthermore, implementation of the programs, measures, and facilities in the Proposed Action will result in greater resource protection and enhance environmental resources as compared to baseline conditions (No-Action Alternative). These measures are summarized in Section 4.0 – Proposed Action.
