

APPENDIX C1c
Reservoir Water Surface Elevation Plots

TABLE OF CONTENTS

Hell Hole Reservoir

- Figure C – 1. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Wet Water Years.
- Figure C – 2. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Above Normal Water Years.
- Figure C – 3. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Below Normal Water Years.
- Figure C – 4. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Dry Water Years.
- Figure C – 5. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Critical Water Years.
- Figure C – 6. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Extreme Critical Water Years.

French Meadows Reservoir

- Figure C – 7. French Meadows Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Wet Water Years.
- Figure C – 8. French Meadows Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Above Normal Water Years.
- Figure C – 9. French Meadows Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Below Normal Water Years.
- Figure C – 10. French Meadows Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Dry Water Years.
- Figure C – 11. French Meadows Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Critical Water Years.
- Figure C – 12. French Meadows Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range During Extreme Critical Water Years.

Hell Hole Reservoir

Figure C-1. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range during Wet Water Years.

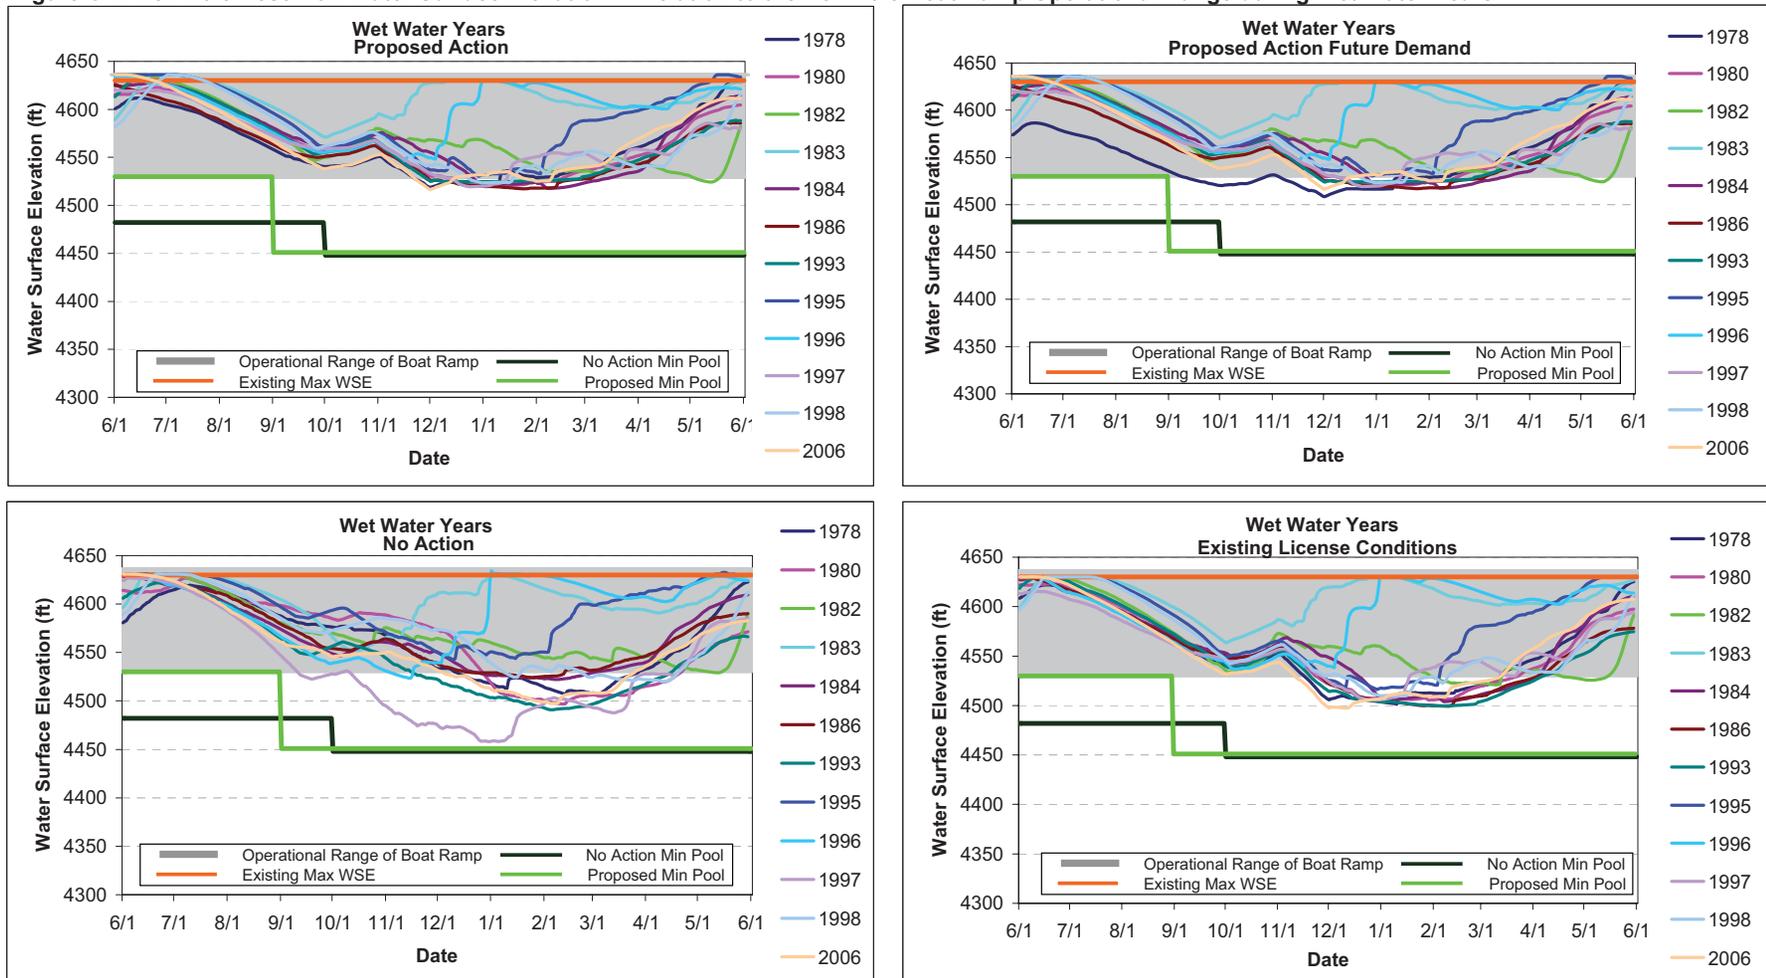

Figure C-2. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range during Above Normal Water Years.

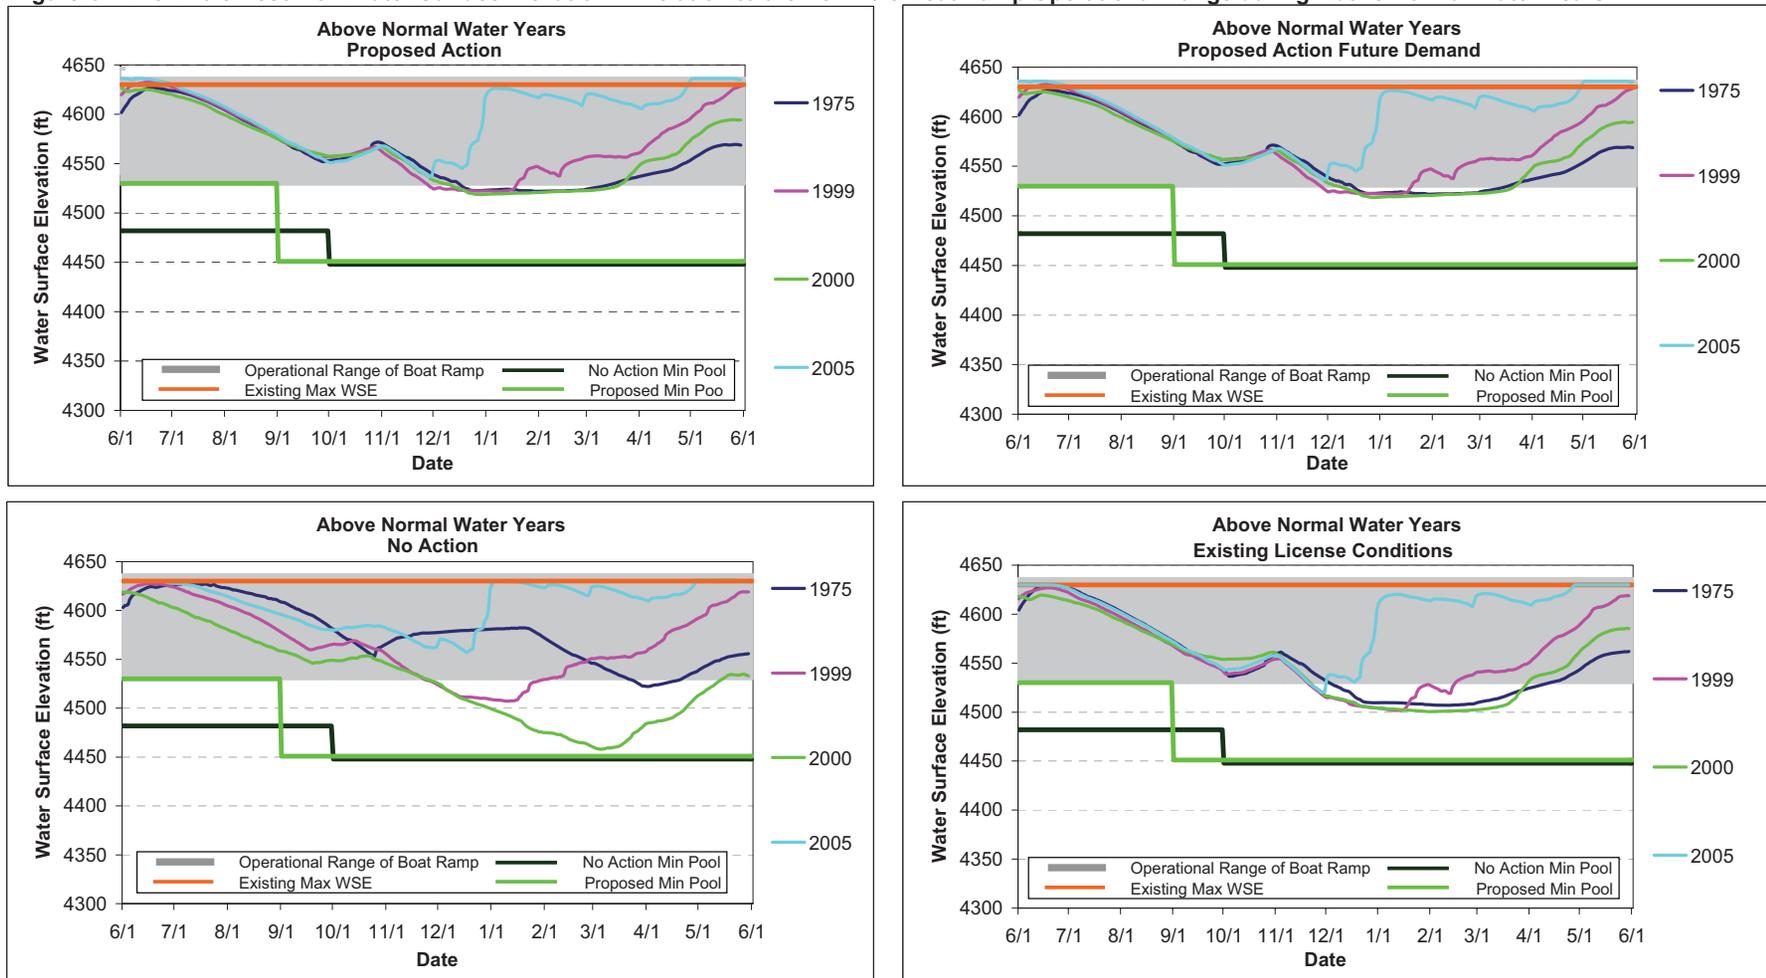

Figure C-3. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range during Below Normal Water Years.

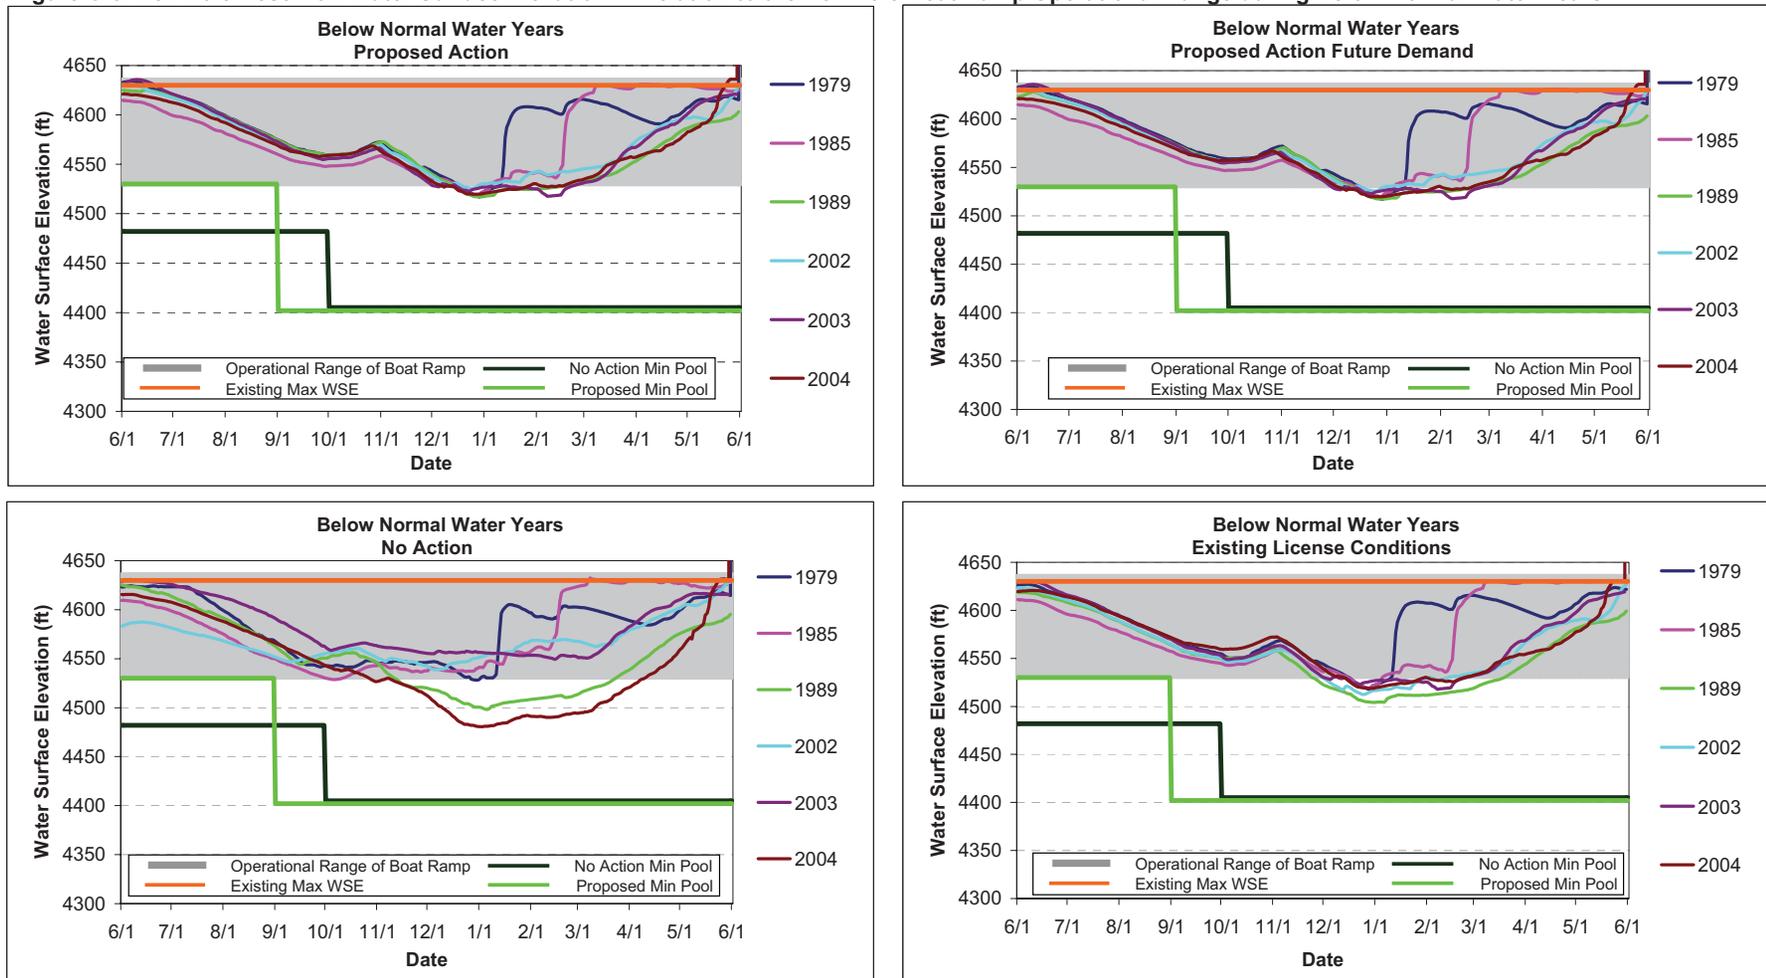

Figure C-4. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range during Dry Water Years.

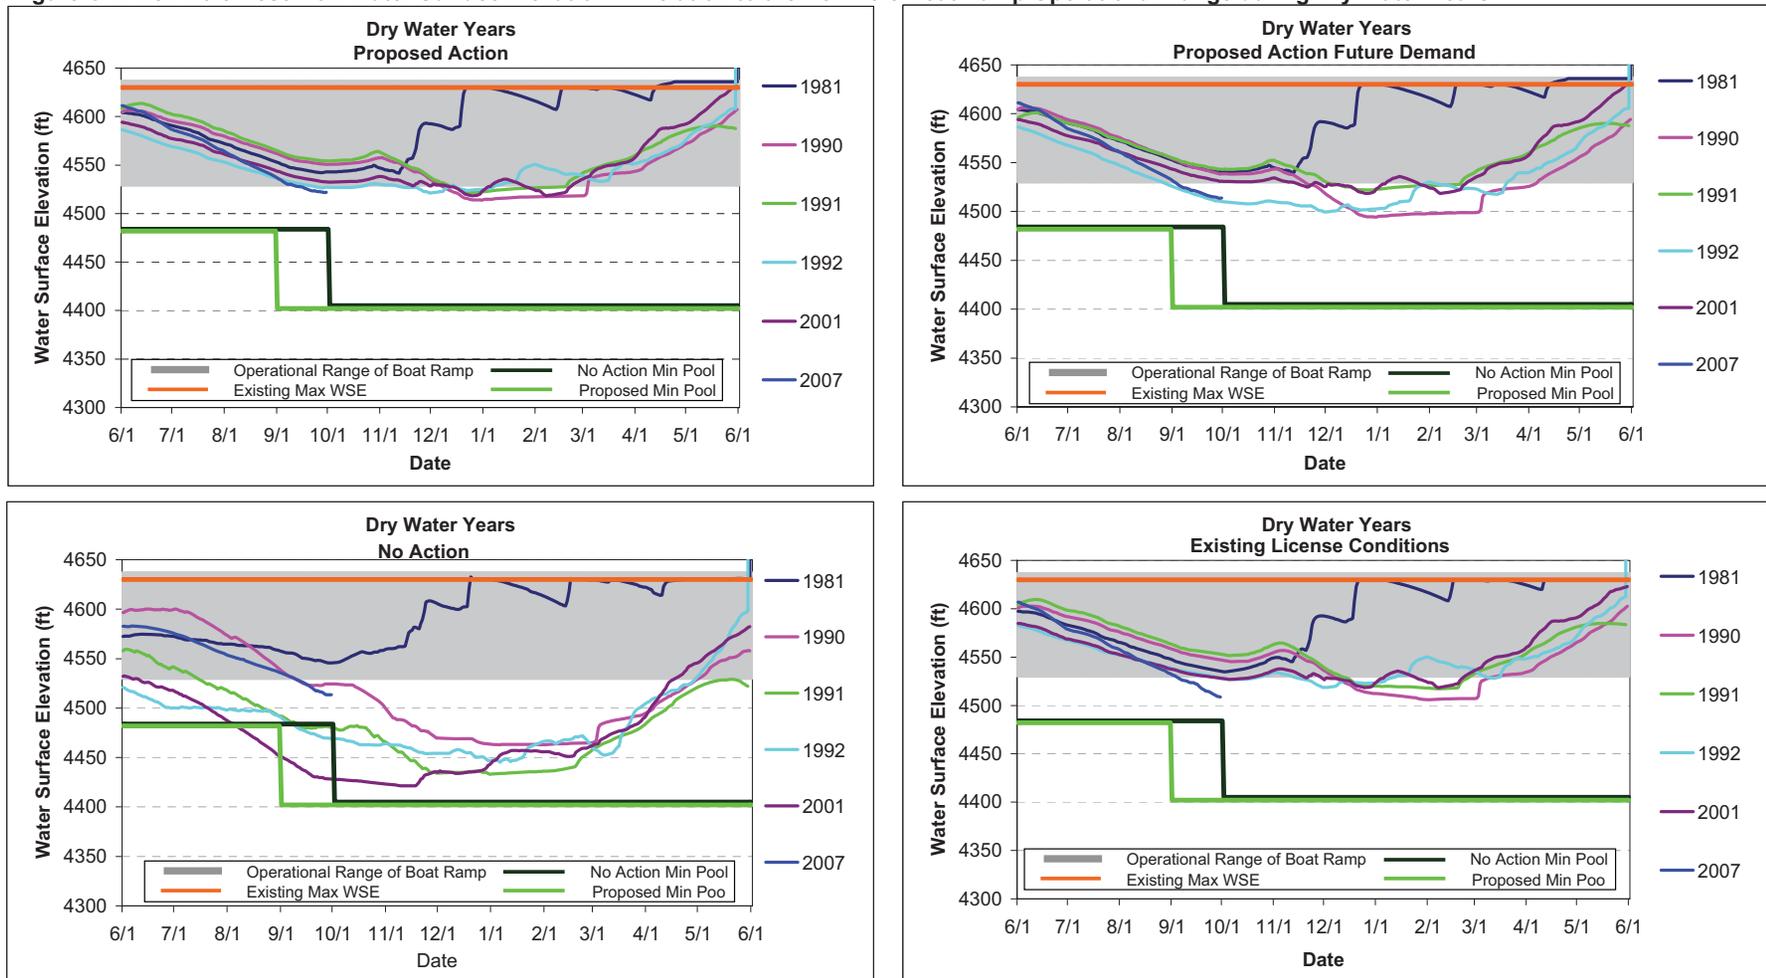

Figure C-5. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range during Critical Water Years.

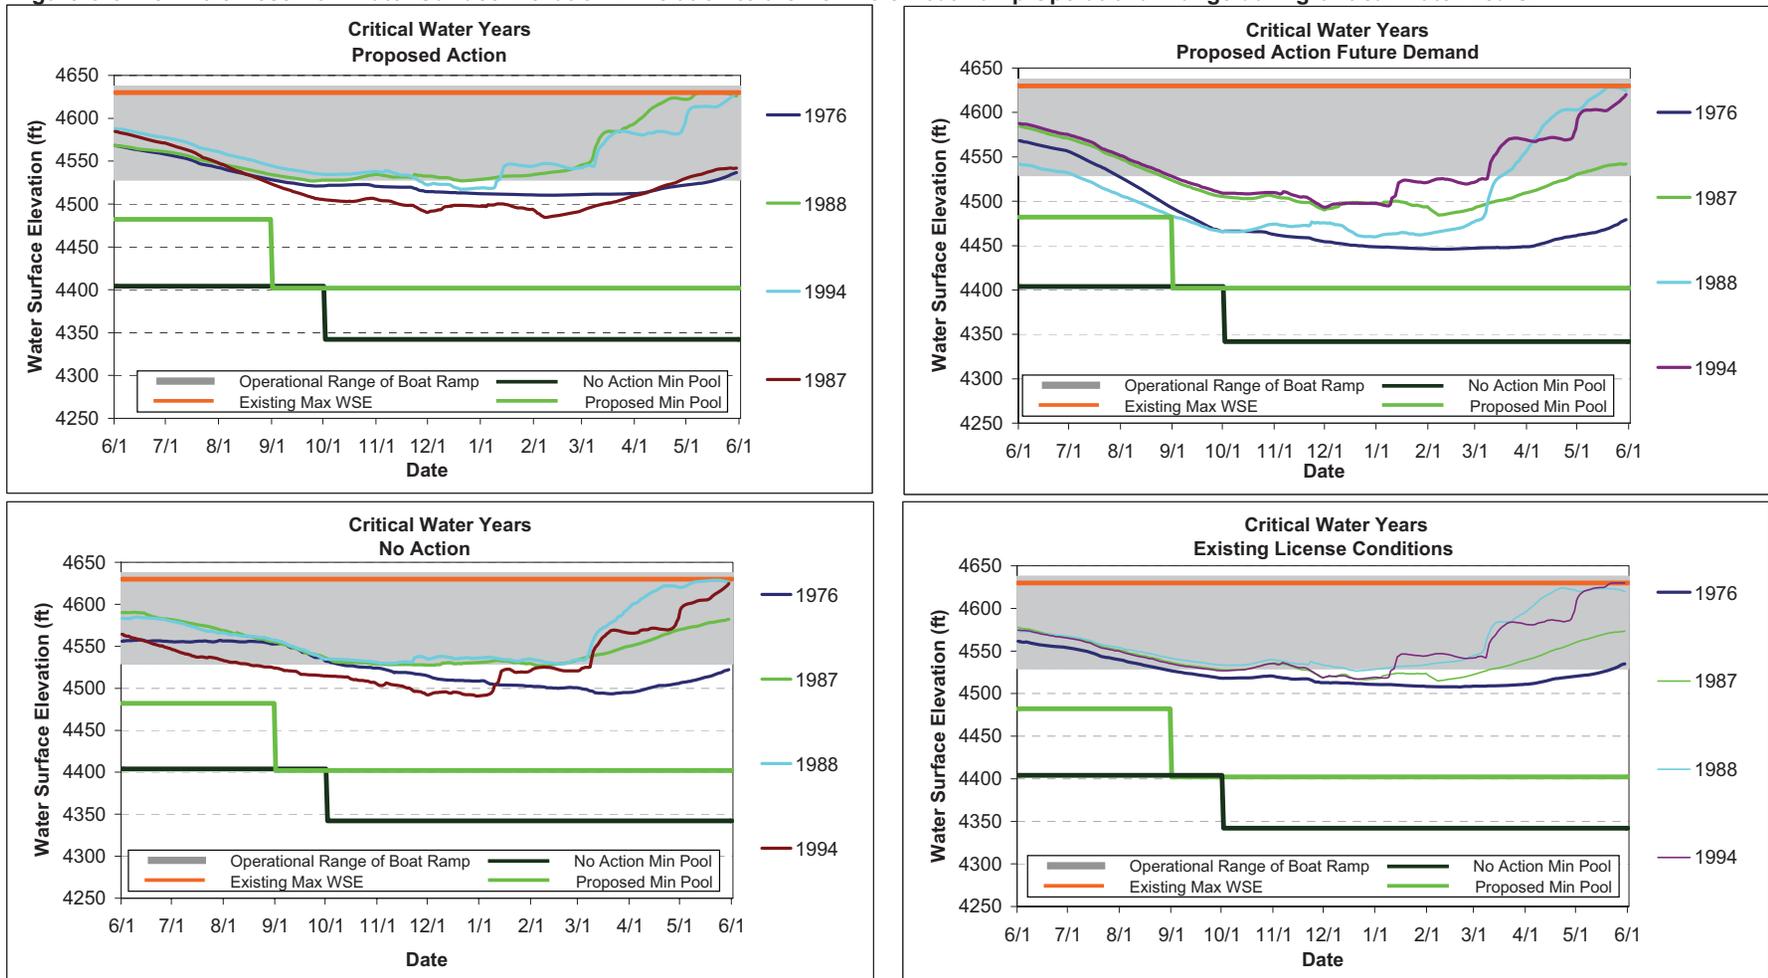

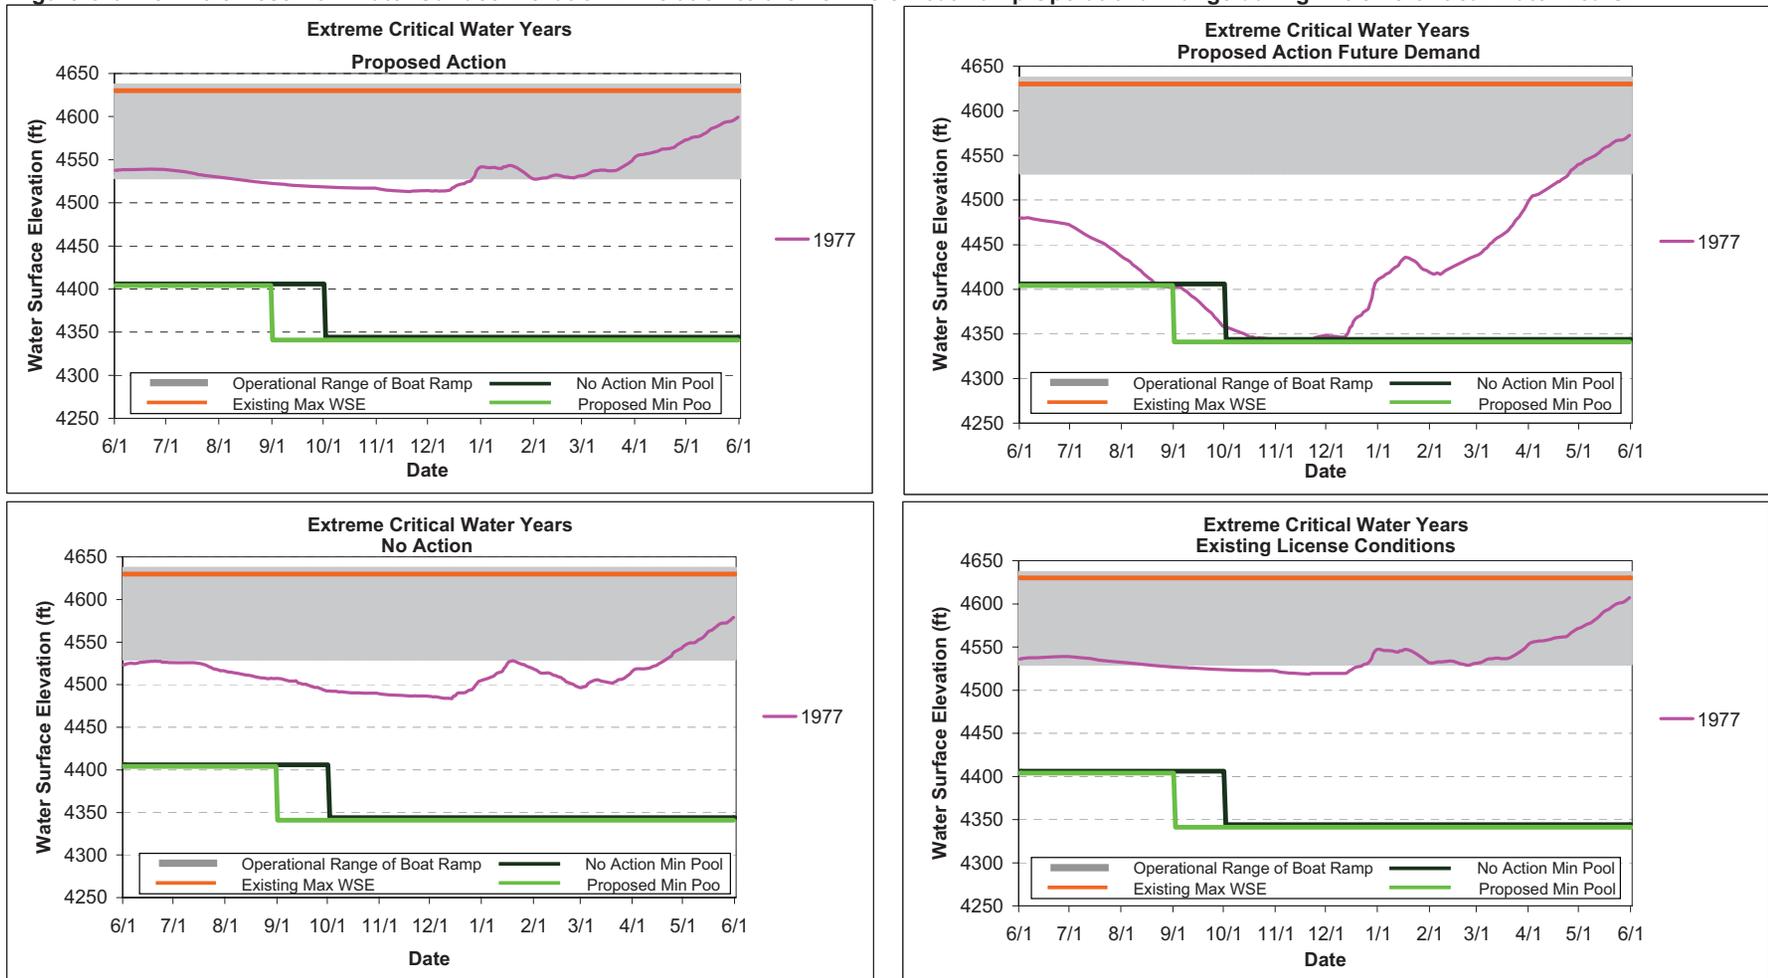

Figure C-6. Hell Hole Reservoir Water Surface Elevation in Relation to the Hell Hole Boat Ramp Operational Range during Extreme Critical Water Years.

French Meadows Reservoir

Figure C-7. French Meadows Reservoir Water Surface Elevation in Relation to the French Meadows Boat Ramp Operational Range during Wet Water Years.

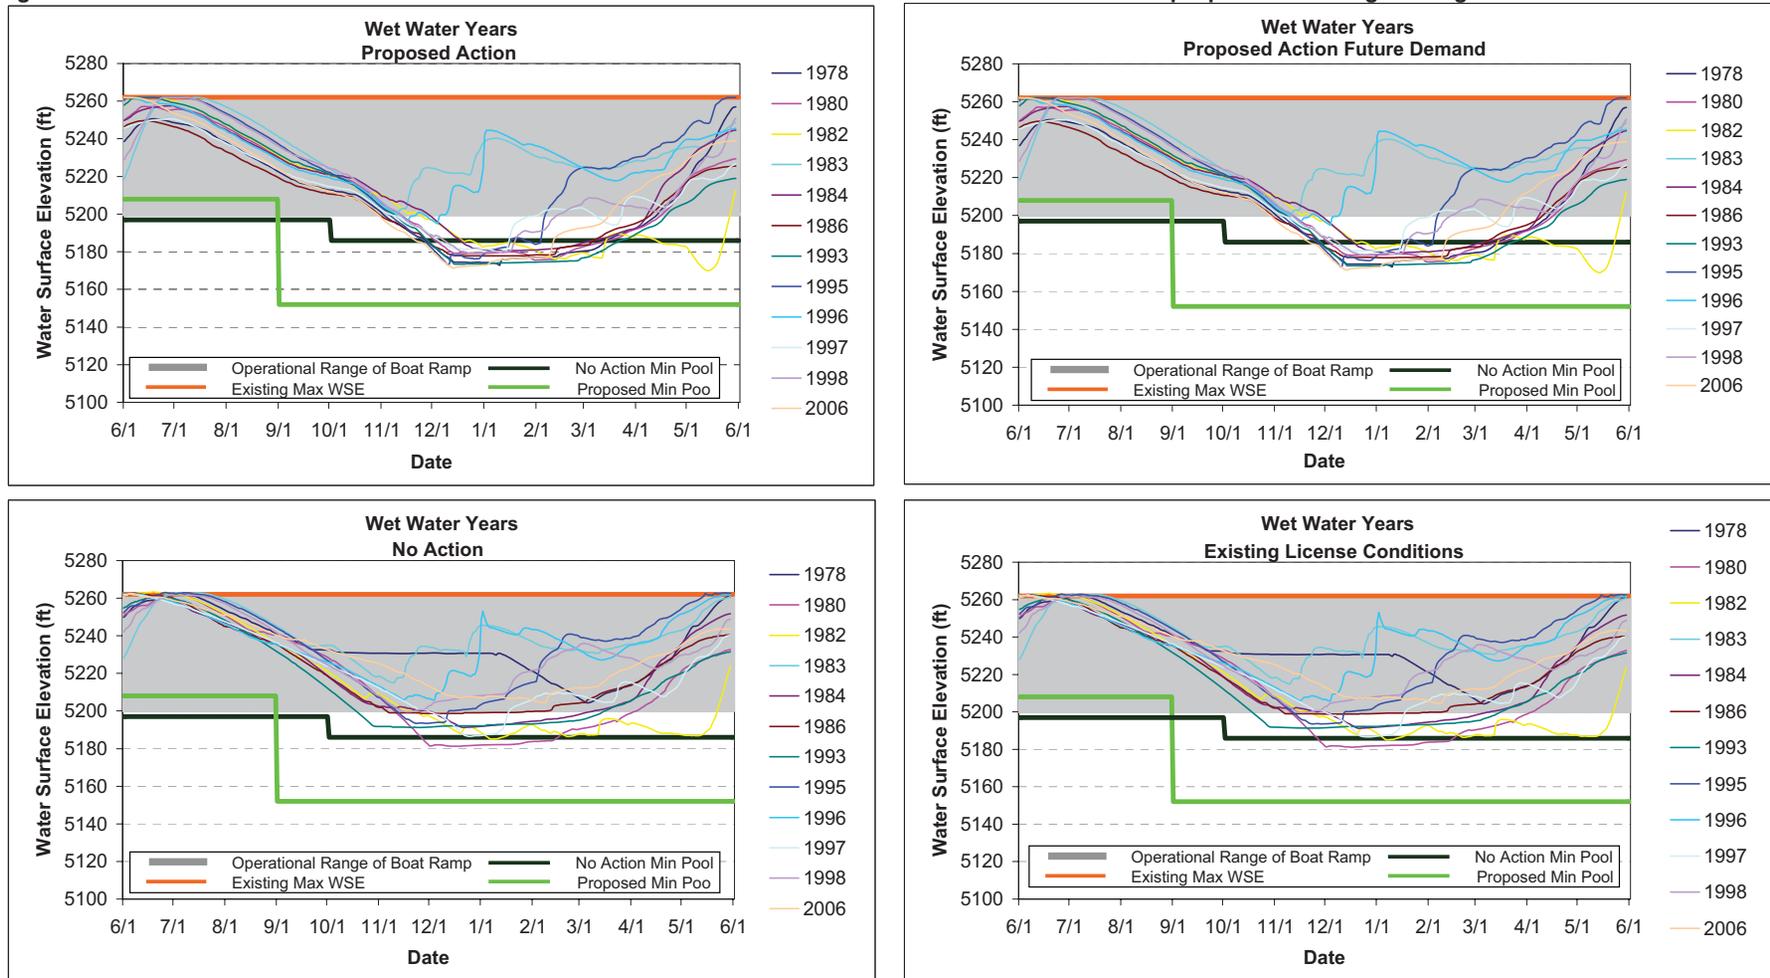

Figure C-8. French Meadows Reservoir Water Surface Elevation in Relation to the French Meadows Boat Ramp Operational Range during Above Normal Water Years.

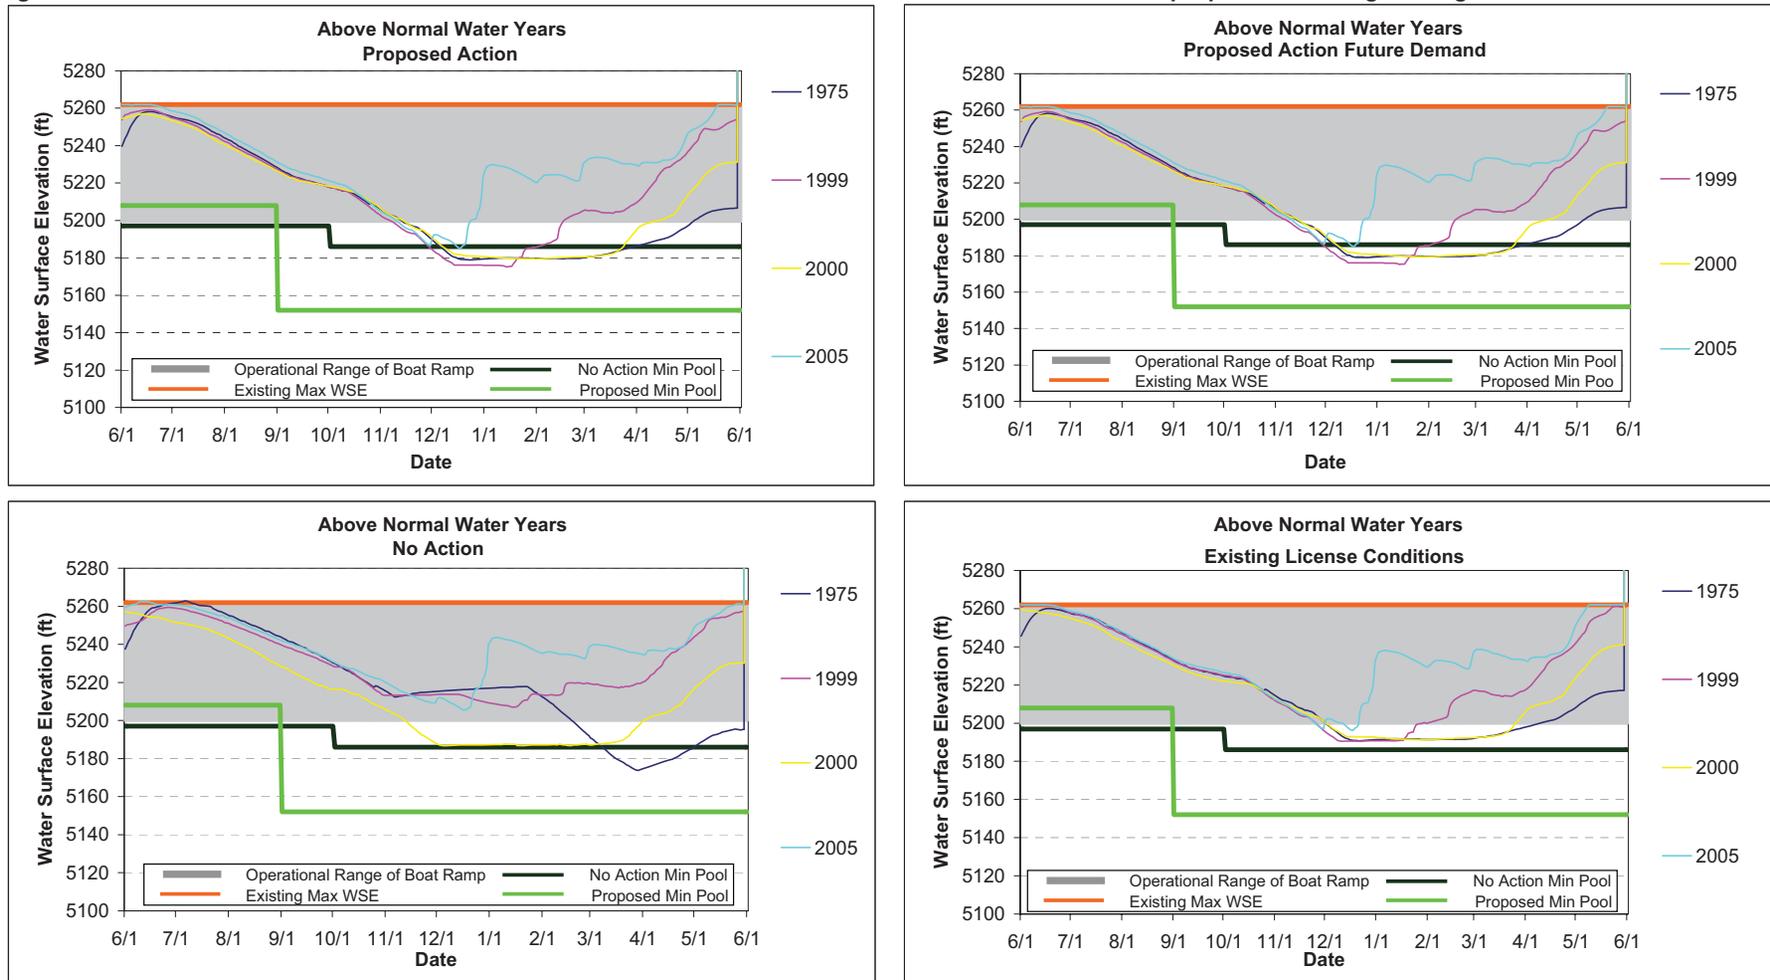

Figure C-9. French Meadows Reservoir Water Surface Elevation in Relation to the French Meadows Boat Ramp Operational Range during Below Normal Water Years.

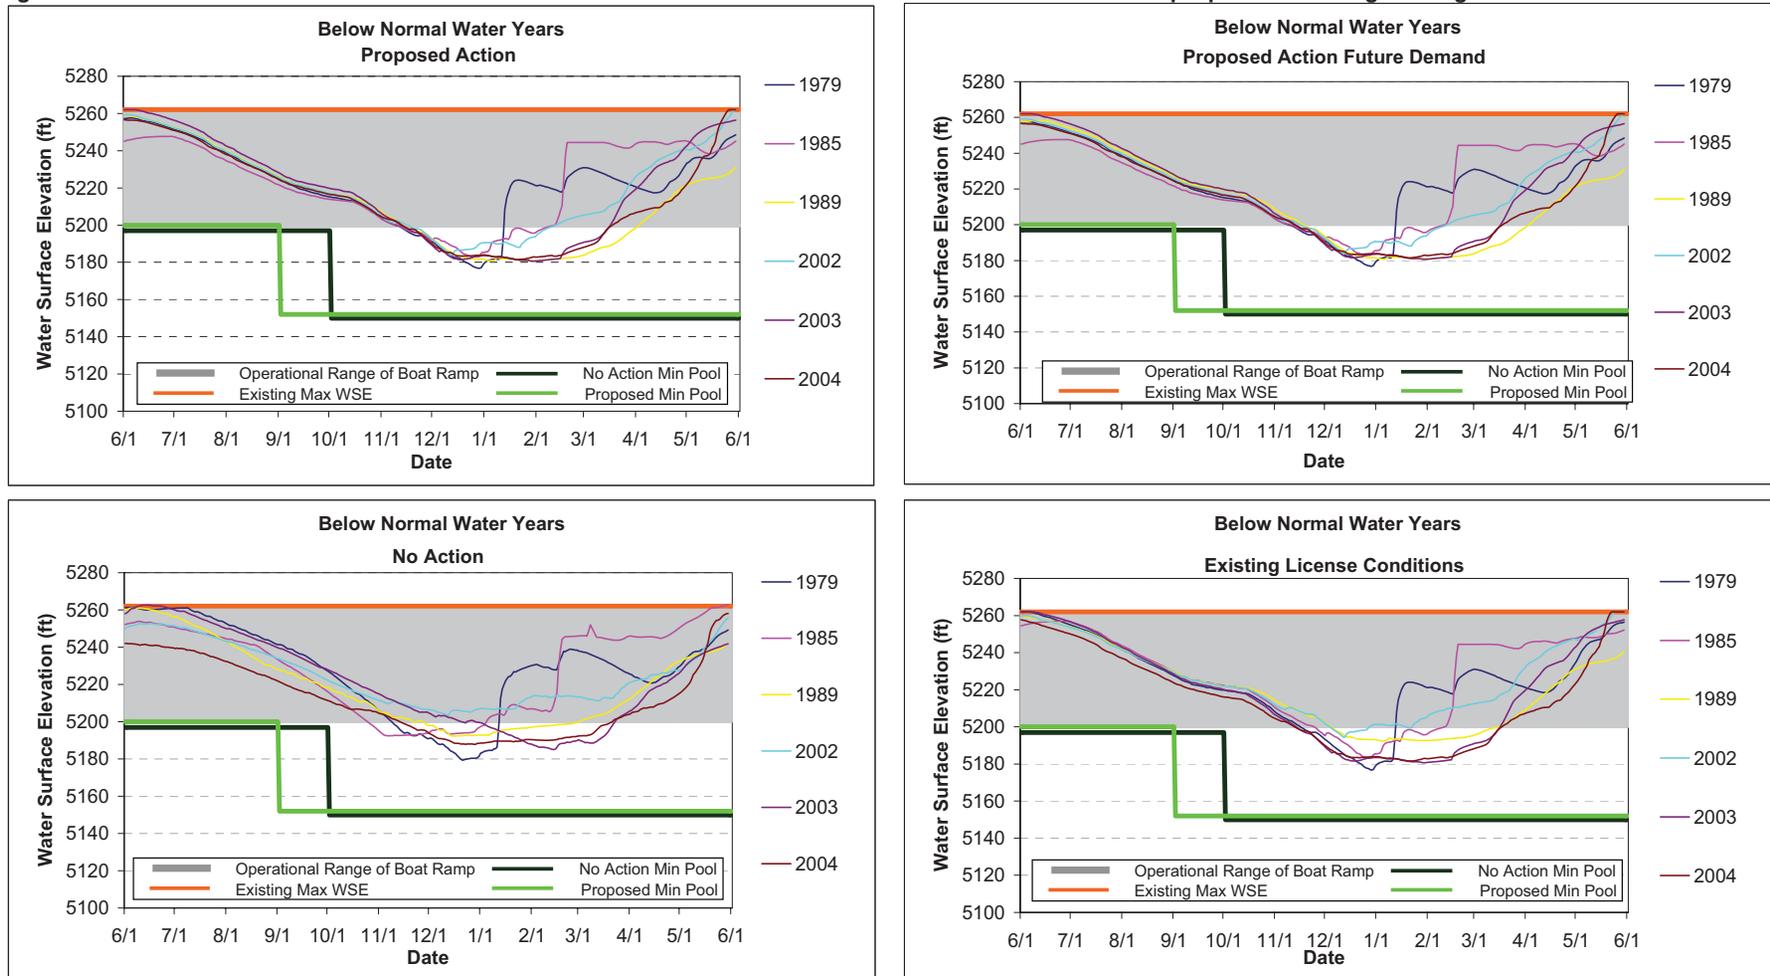

Figure C-10. French Meadows Reservoir Water Surface Elevation in Relation to the French Meadows Boat Ramp Operational Range during Dry Water Years.

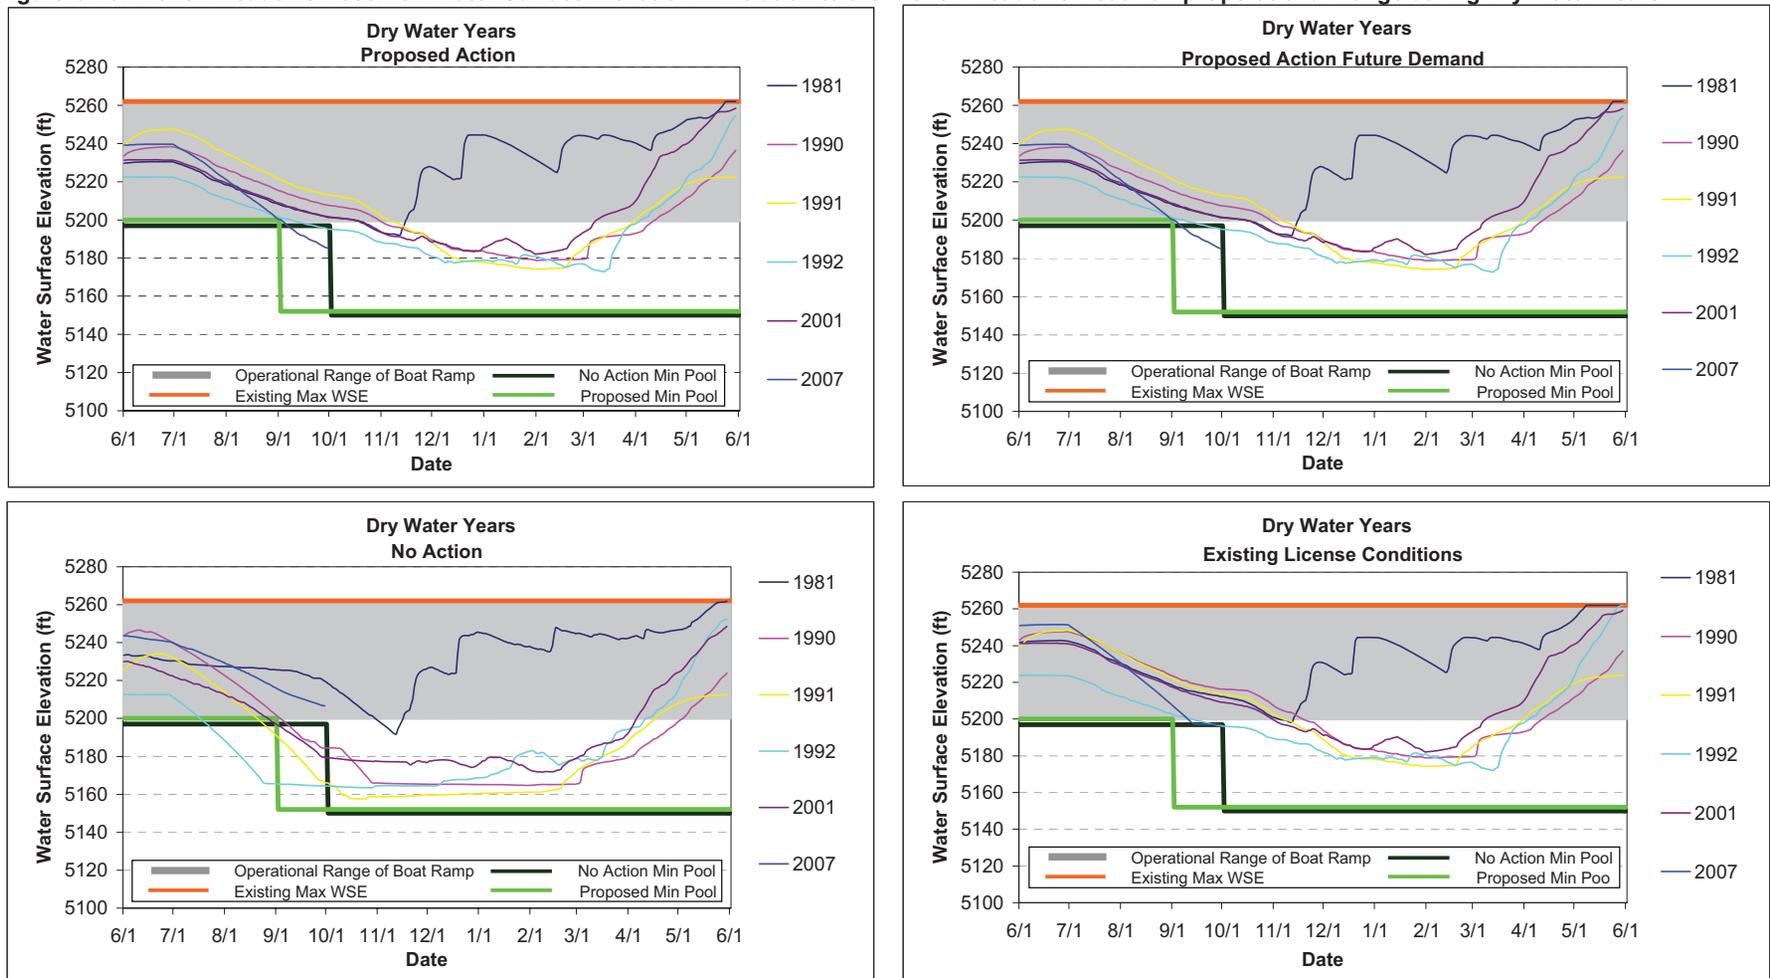

Figure C-11. French Meadows Reservoir Water Surface Elevation in Relation to the French Meadows Boat Ramp Operational Range during Critical Water Years.

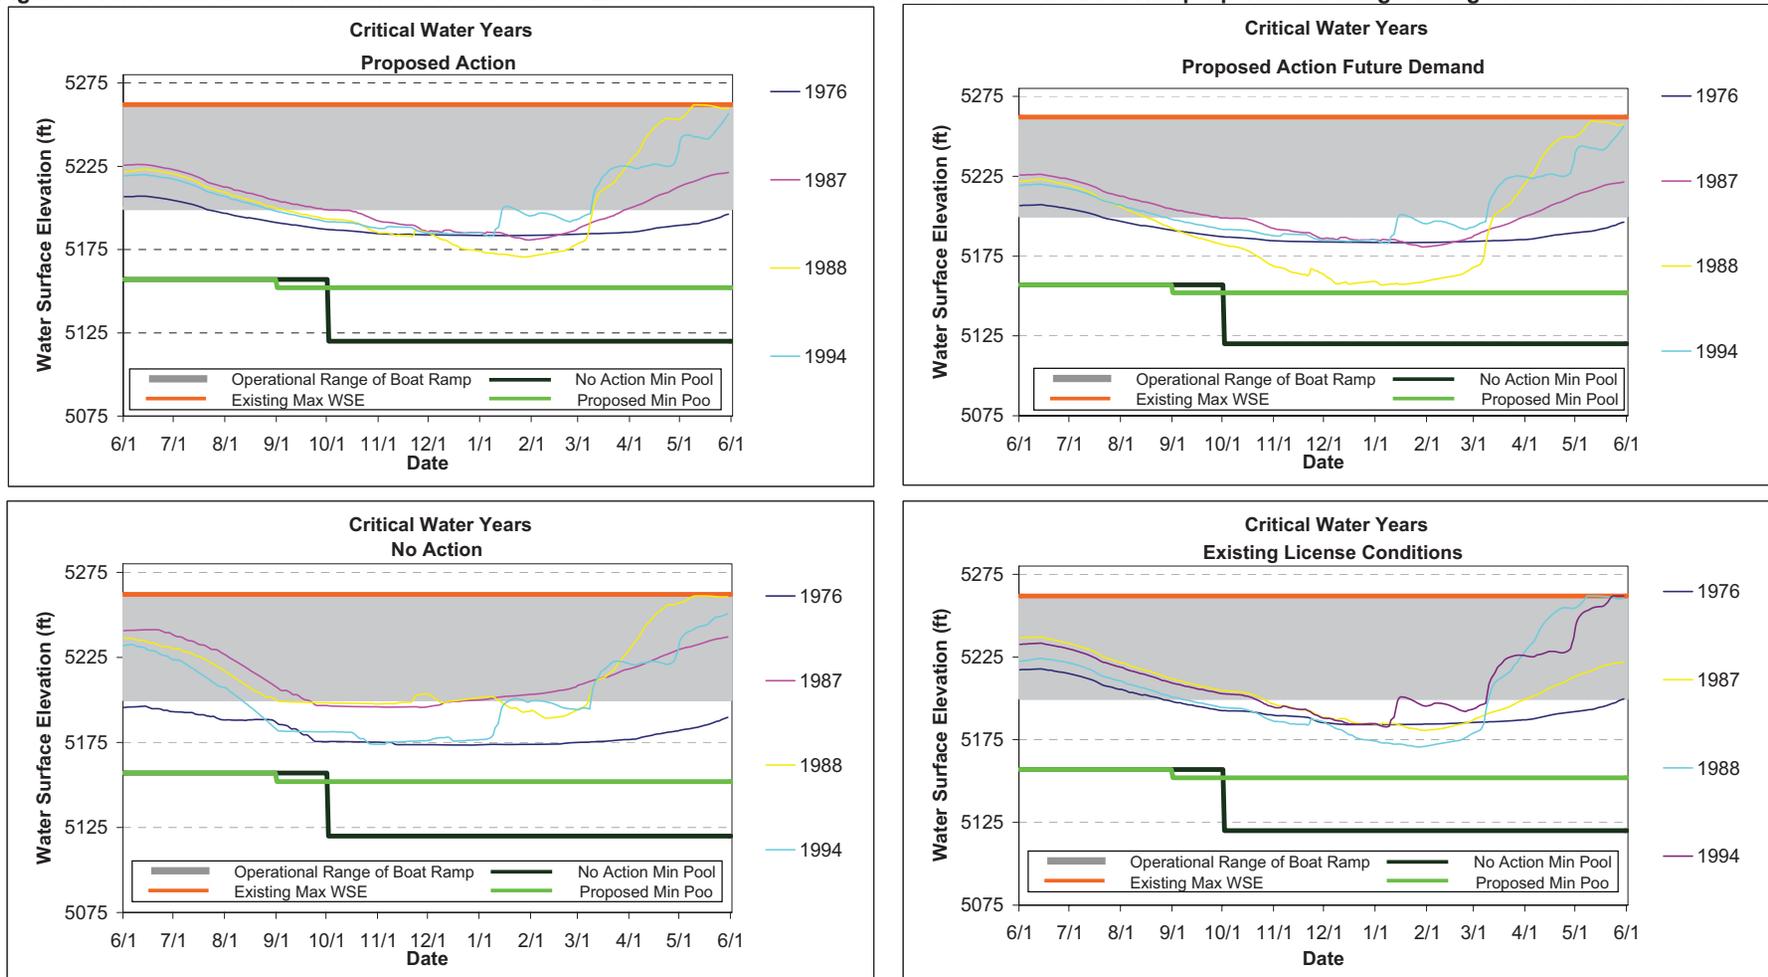

Figure C-12. French Meadows Reservoir Water Surface Elevation in Relation to the French Meadows Boat Ramp Operational Range during Extreme Critical Water Years.
