---

Andy,

Given the limited time at these meetings, it would be helpful if a summary, could be sent out, explaining why crossing opportunities increased as a result of the Proposed Action. This would give me and others interested in this aspect of the flow impacts to get up to speed and save time at the meetings.

If the DLA doesn't contain an explanation to support the conclusions re the crossing opportunities, then please consider this email a comment on the DLA requesting the explanation.

Thanks,  
Pat G.

**Subject:** RE: PCWA/MFP - crossing opportunities

Hi Pat,

This is a rather complex discussion that I think we should have during the collaborative meetings. It's a bit difficult to do via e-mail without the benefit of graphics. Please bring this up at our next meetings and the PCWA team will go through the metrics for the benefit of the group.

AF

**Subject:** RE: PCWA/MFP - crossing opportunities

Thanks Andy,

Reviewing the DLA regarding crossing opportunities, I notice that in many instances crossing opportunities increased with the proposed Action. What factors contributed to this increase and is there an explanation for these increases in the DLA?

Patricia Gibbs
