Notes:

NA = no data available; use to be determined from Forest Service data

¹ - Vehicle counts at the Indian Bar Rafting Access and General Parking areas do not include vehicles associated with commercial boating activities.

² - Vehicle counts at the Cherokee Bar Overlook and at Ruck-a-Chucky do not include vehicles parked at the staging areas at the top of Driver's Flat Road.

³ - Only four counts were made in the Upper portion of the study area as road made sites inaccessible for all other counts. Two Weekday PM counts and two Weekend AM were made. All other scheduled count days assumed use to be zero.

⁴ - Vehicle counts at Mammoth Bar do not include vehicles associated with OHV use.
